Dear Mr. Reigle,

P.S. 102 was very fortunate to have 18 parents from our school participate in the Making Sense of Adolescence Program for nine weeks. We were grateful that Mark Rosenbaum allowed the program to take place in our school even though we weren't part of the Annenberg Grant.

This is an excellent program and the parents that participated really learned to openly share and learn more effective ways to deal with the challenges of their lives. They felt that it helped them to improve their relationships with their families. Many of the parents were able resolve problems that they were having with their children or other members of their families. They stated that they learned the importance of respecting and listening to others and not to blame others for their mistakes.

The parents overwhelmingly evaluated the program as excellent. This is a program that really makes a difference for parents. Mark is an outstanding facilitator and the parents found it easy to relate to him and to share openly and honestly their problems and challenges.

Very Truly Yours,

*Eileen Reiter*
